 Lavaredo Ultratrail

Centro Valanghe di Arabba
Alpine Meteorology Office

SYNOPTIC SITUATION: Stationary conditions: a cyclonic structure on Spain and on Western Europe only marginally affects weather on the Venetian Alps, where also convective diurnal instability will be mostly weak, despite a stronger possible instability today. Thermal conditions remain typically summer like, with values around the average.

Sea surface prognostic chart for 12 GMT of Saturday 25th June 2022

Today: Variable and instable weather towards evening. During the day irregularly cloudy, cloudiness more intense than Thursday, which will limit the sunshine in the afternoon/evening, with chance higher than the day before of some showers or thunderstorms (50/70%) Still summer like diurnal temperatures with High values of 22/23°C at Cortina and 15/17°C at 2000 m. **Wind:** In the valley light/moderate due to breezes; top mountains fresh to strong winds from southwest

Freezing level h12 (m)

WEATHER FORECAST

SATURDAY 25: Mostly sunny weather, with clear or scattered/broken sky due to weak cumulus clouds in the day, with low chance of precipitation, eventually only some isolated showers in the afternoon/evening (10/30%). Moderately warm diurnal climate.

Temperatures: Stationary Low values, rising the Highs. At 1500 m: min 10°C max 17°C; at 2200 m: min 7°C max 14°C.

Wind: In the valley light/moderate due to breezes; top mountains light westerly winds, 5-10 km/h at 2000 m, 5-15 km/h at 3000 m.

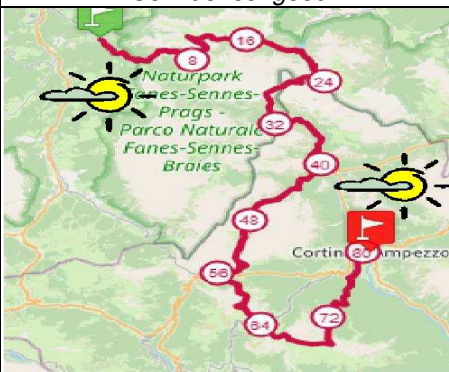

Saturday 25
 Confidence: good

SUNDAY 26: Mostly sunny weather, with clear or scattered sky due to weak cumulus clouds in the day, with very low chance of precipitation. Moderately warm diurnal climate. Slightly rising diurnal temperatures and warm diurnal climate. Light/moderate top mountain winds from south-west, breezes in the valley

Temperatures: Stationary Low values, raising the Highs. At 1500 m: min 12°C max 18°C; at 2200 m: min 9°C max 15°C.

Wind: In the valley light/moderate due to breezes; top mountains light westerly winds, 5-10 km/h at 2000 m, 5-20 km/h at 3000 m.

Sunday 26
 Confidence: good

Forecaster: DDL
