

WEATHER FORECAST

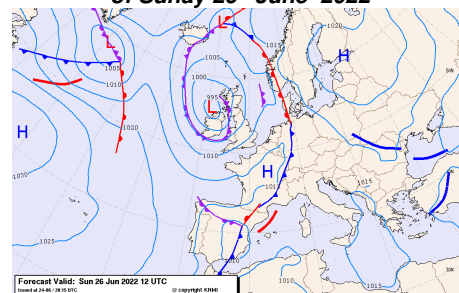

issued by Arabba Avalanche Centre
Saturday, Jun 25th 2022 at 13.00 h
 Lavaredo Ultratrail

**Centro Valanghe di Arabba
 Alpine Meteorology Office**

SYNOPTIC SITUATION: A cyclonic circulation on Spain and a dynamic High pressure structure from North Africa to Scandinavia cause a south-westerly flow of warmer and warmer air on the Venetian Alps; so, weather, after a quite cooler day on Saturday, is going to be warmer on Sunday, and it will remain mostly settled.

Sea surface prognostic chart for 12 GMT of Sunay 26th June 2022

Today: Mostly sunny weather, with clear or scattered/broken sky due to weak cumulus clouds in the day, with low chance of precipitation, eventually only a shower or thunderstorm in the afternoon/evening (10/30%). Moderately warm diurnal climate, with High values of 22/24°C at Cortina and 13/14°C at 2200 m.
